

## All-Natural Kitchen Cleaner

### Supplies:

1 cup distilled white vinegar  
1 cup water  
3 drops tea tree oil  
3 drops any essential oil of your choice

### Tools:

A 16-ounce glass bottle with spray attachment  
2-cup liquid measuring cup

### Instructions

1. Get the 16-ounce glass bottle with spray attachment, 1 cup distilled white vinegar, 1 cup water, 3 drops tea tree oil, and 3 drops grapefruit essential oil.
2. Pour the vinegar, then water into the bottle. Use a small funnel if necessary.
3. Slowly pour three drops of tea tree oil and three drops of any scented essential oil you like.
4. Shake the bottle vigorously before using to allow all ingredients to distribute evenly throughout.
5. Spray directly onto the surface or onto a kitchen towel and wipe area clean.

### Notes:

- The essential oils tend to sit at the top of the bottle, so be sure to shake vigorously before spraying on any surfaces.
- Make sure to thoroughly clean the bottle after the mixture is gone.
- Do not mix bleach or peroxide with vinegar- this could be toxic!
- A great, cheap idea is to repurpose a glass vinegar bottle (like apple cider vinegar) after you're done using it.
