

Building for Lasting Impact Naming Opportunities

The Building for Lasting Impact

initiative allows Loaves & Fishes to efficiently serve substantially more families in need. The plan allows us to expand geographically and provides omnichannel distribution through a hub and spoke model. A critical part of our plan is acquiring an additional building that will serve as the hub for distribution, storage, processing, and client order fulfillment.

We look forward to partnering with you to overcome the devastating challenge of food insecurity and lack of self-sufficiency faced by thousands of families in our community. Your generosity for this important next chapter will result in lasting impact for generations to come.

Building for Lasting Impact | Naming Opportunities
