

# 2022 ANNUAL REPORT

**Loaves & Fishes**  
Community Services

Dear Friends,

We greatly appreciate your valued partnership as our organization experienced a tremendous amount of growth in 2022.

Over the past year, the number of clients we served over doubled. We are very fortunate to be able to provide many more people with healthy food and services. And importantly, they now have multiple ways to access the help they need.

We have focused on the lessons we have learned along the way. In our last Strategic Plan, to serve the community's growing need, we had to rethink our model of how we provide food and services. Our new model needed to be more scalable, expansive, efficient, flexible, and adaptable. We didn't know where this would lead us, but we knew we had to think big to accomplish these objectives. Thinking big allowed us to implement a new hub and spoke model that has performed very well despite the headwinds of a pandemic and economic turmoil.

Our Loaves & Fishes CARES Programs provide additional resources to help struggling families with essential needs. As a result of the pandemic, emergency assistance has doubled in the last year.

Our organization exists to serve the community, and working with many people and many other organizations is critical. As we look forward, expanding and deepening relationships will be an even greater priority. The not-for-profit world is a fragmented one, and more collaborations and partnerships will serve those in need more effectively and deploy community resources more efficiently.

We don't know what new macro challenges will arise in the future. We do know, however, that thinking big and working together will have a bigger impact in addressing the needs of families in our community.

We value the tremendous support of our community that has played a pivotal role in the expansion and future of Loaves & Fishes Community Services this year. Your impact is lasting, and so is our gratitude.

With thanks,

  
**Mike Havala**  
President and CEO

  
**Susan Haines**

Directors
